

Remarks

The Examiner has rejected each of the pending claims under 35 U.S.C. §103 as being unpatentable over U.S. Publication 2003/0069032 (Jarvi et al) in combination with other prior art. Jarvi et al qualifies as prior art under 35 U.S.C. §102(e) as being described in an application for patent published under Section 122(b). However, Jarvi et al do not qualify as prior art in an obviousness rejection because the subject matter disclosed therein is "owned by the same person or subject to an obligation of assignment to the same person" as recited in 35 U.S.C. 103(c)(i).

The present application is recorded in the records of the United States Patent and Trademark Office as being owned by Nokia Corporation as indicated in the July 30, 2002 Notice of Recordation of Assignment document, a copy of which is submitted herewith. Additionally, submitted herewith from the United States Patent and Trademark Office records is a patent assignment abstract of title for Jarvi et al reflecting ownership by Nokia Corporation.

Accordingly, since all of the claims stand rejected under 35 U.S.C. §103 as being unpatentable over Jarvi et al as a principal reference in combination with other cited prior art, it is submitted that the rejection of the claims has been overcome.

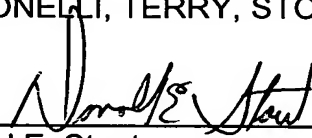

Early allowance of the claims is respectfully requested.
